

Agricultural Marketing Service, USDA

§ 929.49

of the grower and the quantity of cranberries attributed to such grower. The handler shall furnish such information to the committee at such times and in such forms as the committee, with the approval of the Secretary, may request.

(b) So that each producer may qualify for a base quantity, pursuant to § 929.48, the committee shall furnish each producer early in each calendar year beginning in 1969, and as soon as practicable after the effective date of the amendment for the 1968 calendar year, a form to be filed with the committee whereon the producer reports the location of his bog(s), the acreage of cranberries he intends to harvest, and such other information as the committee needs to establish a base quantity for such producer.

[33 FR 11641, Aug. 16, 1968]

§ 929.48 Sales history.

(a) *Determination of sales history.* (1) The initial sales history shall be computed by the committee for each grower using the best four out of six years of such grower's sales history, which shall include all commercial sales from the first complete crop year following adoption of this amendment, plus the prior five years' history of commercial sales, except as otherwise provided in paragraph (a)(5) of this section. For a grower with four years or less of commercial sales history, the initial sales history shall be computed by the committee using all available years of such grower's commercial sales history.

(2) A new sales history shall be computed for each grower after each crop year during which no volume regulation was established, in the same manner as for the initial sales history, except that the most recent crop year shall be used instead of the earliest crop year, and except as otherwise provided in paragraph (a)(4) of this section. The committee, with the approval of the Secretary, may, by regulation, alter the number and identity of years to be used in computing these subsequent sales histories.

(3) A new sales history shall be calculated for each grower after each crop year, during which a volume regulation has been established, using a formula

determined by the committee, with the approval of the Secretary.

(4) Beginning with the first complete crop year following the adoption of this section, if a grower has no commercial sales from such grower's cranberry acreage for three consecutive crop years due to forces beyond the grower's control, the committee shall compute a level of commercial sales for the fourth year for that acreage using an estimated production, obtained by crediting the grower with the average sales from the preceding three years during which sales occurred. Any and all relevant factors regarding the grower's lost production may be considered by the committee prior to establishing a sales history for such acreage.

(5) The committee shall compute a sales history for a grower who has no history of sales associated with such grower's cranberry acreage during a crop year when a volume regulation has been established, using the greater of the following:

(i) The total estimated commercial sales from a grower's cranberry acreage, or

(ii) The state average yield per acre multiplied by the grower's cranberry producing acreage. *Provided*, That a grower having unused allotment and received a sales history computed under either of these methods shall forfeit such unused allotment.

(b) *Grower report.* Each grower shall file a report with the committee by January 15 of each crop year, indicating the total acreage harvested, the total commercial cranberry sales in barrels from such acreage, and the amount of any new or renovated acreage planted, to allow the committee to compute a sales history for each grower.

(c) The committee may establish, with the approval of the Secretary, rules and regulations necessary for the implementation and operation of this section.

[57 FR 38749, Aug. 27, 1992]

§ 929.49 Marketable quantity, allotment percentage, and annual allotment.

(a) *Marketable quantity and allotment percentage.* If the Secretary finds, from the recommendation of the committee

or from other available information, that limiting the quantity of cranberries purchased from or handled on behalf of growers during a crop year would tend to effectuate the declared policy of the Act, the Secretary shall determine and establish a marketable quantity for that crop year.

(b) The marketable quantity shall be apportioned among growers by applying the allotment percentage to each grower's sales history, established pursuant to § 929.48. Such allotment percentage shall be established by the Secretary and shall equal the marketable quantity divided by the total of all growers' sales histories. Except as provided in paragraph (f) of this section, no handler shall purchase or handle on behalf of any grower cranberries not within such grower's annual allotment.

(c) In any crop year in which the production of cranberries is estimated by the committee to be equal to or less than its recommended marketable quantity, the committee may recommend and the Secretary may increase or suspend the allotment percentage applicable to that year. In the event it is found that market demand is greater than the marketable quantity previously set, the committee may recommend and the Secretary may increase such quantity.

(d) *Issuance of annual allotments.* The committee shall require all growers to qualify for that allotment by filing with the committee, on or before April 15 of each year, a form wherein growers include the following information: The location of their cranberry producing acreage from which their annual allotment will be produced; the amount of acreage which will be harvested; changes in location, if any, of annual allotment; and such other information, including a copy of any lease agreement, as is necessary for the committee to administer this part. On or before June 1, the committee shall issue to each grower an annual allotment determined by applying the allotment percentage established pursuant to paragraph (b) of this section to the grower's sales history.

(e) On or before June 1 of any year in which an allotment percentage is established by the Secretary, the committee shall notify each handler of the

annual allotment that can be handled for each grower whose total crop will be delivered to that handler. In cases where a grower delivers a crop to more than one handler, such grower's annual allotment will be apportioned equitably among the handlers.

(f) Growers who do not produce cranberries equal to their computed annual allotment shall transfer their unused allotment to such growers' handlers. The handler shall equitably allocate the unused annual allotment to growers with excess cranberries who deliver to such handler. Unused annual allotment remaining after all such transfers have occurred shall be transferred to the committee pursuant to paragraph (g) of this section.

(g) Handlers who receive cranberries more than the sum of their growers' annual allotments have "excess cranberries," pursuant to § 929.59, and shall so notify the committee. Handlers who have remaining unused allotment pursuant to paragraph (f) of this section are "deficient" and shall so notify the committee. The committee shall equitably distribute unused allotment to all handlers having excess cranberries.

(h) The committee may establish, with the approval of the Secretary, rules and regulations necessary for the implementation and operation of this section.

[33 FR 11641, Aug. 16, 1968, as amended at 57 FR 38749, Aug. 27, 1992]

EFFECTIVE DATE NOTE: At 65 FR 42614, July 11, 2000, in § 929.49(d), the phrase "On or before June 1", and in § 929.49(e), the phrase "On or before June 1 of any year in which an allotment percentage is established by the Secretary" were suspended indefinitely.

§ 929.50 Transfers.

(a) Transfers to another grower. A grower who owns cranberry acreage on which a sales history has been established may transfer the acreage and sales history to another grower. When transfers of acreage occur, transfers of sales history will be made under the following conditions:

(1) A lease agreement between the owner of the cranberry producing acreage and a lessee: Terms of such lease
